WELCOME TO PERPETUAL WHOLESALE FUNDS

THE KEY BENEFITS OF INVESTING

Perpetual Wholesale Funds are a suite of investment funds managed by Perpetual where you can choose to invest in:

- a single asset class fund(s), including Australian shares, global shares and fixed income
- a multi asset class fund(s) where we determine the allocation of investments between various asset classes.

This gives you the flexibility to structure an investment portfolio to best suit your needs.

ASSET CLASSES AVAILABLE

The main asset classes that the Funds may invest in are shown in the table below. The Funds may also invest in other types of assets (see 'Fund profiles' on pages 7-21 for details).

ABOUT PERPETUAL INVESTMENTS

Perpetual Investments is one of Australia's leading investment managers, with \$26.1 billion in funds under management (as at 30 September 2019). Perpetual Investments is part of the Perpetual Group, which has been in operation for over 130 years. By employing some of the industry's best investment specialists and applying a proven investment philosophy, Perpetual Investments has been able to help generations of Australians manage their wealth.

We may from time to time appoint external specialist investment managers to manage one or more asset classes in the Funds in whole or in part. Details about current external specialist investment managers at any time are available at our website (see 'Incorporation by reference' on page 46 for details) or can be obtained free of charge by contacting us.

We may also invest in other external managed investment funds from time to time.

THE MAIN ASSET CLASSES

ASSET CLASS	DESCRIPTION OF INVESTMENT
Cash	<p>Cash investments include discount securities (eg bank bills), short-term deposits and money market funds which may invest in fixed income instruments and loans. Cash provides a relatively consistent rate of return in the form of regular interest payments, generally in line with short-term interest rates and is widely considered the lowest investment risk.</p> <p>For Perpetual Wholesale High Grade Treasury Fund, deposits are products offered by authorised deposit-taking institutions (ADIs). ADIs are regulated by the Australian Prudential Regulation Authority (APRA), which enforces standards designed to ensure that under all reasonable circumstances ADIs can meet their obligations to depositors.</p> <p>Money market instruments are considered highly liquid fixed income instruments with a short maturity profile.</p>
Fixed income	<p>Fixed income instruments are securities issued by an issuer for a pre-determined period. The issuers may include governments, banks, corporations and asset backed trusts. The instruments when issued usually provide a return in the form of defined periodic income payments and the return of principal at maturity. These income payments are either fixed when issued or set periodically against a benchmark.</p>
Property	<p>A property investment involves buying shares that represent a portion of ownership in a property related security, buying units in a listed or unlisted property trust or buying property directly. Property investments can be in a range of sectors including commercial, industrial, residential and retail. Returns are usually generated from rental income and changes in the value of the underlying properties.</p>
Shares	<p>Shares represent a portion of ownership in a company. Shareholders can benefit if a company passes on some of its profits to them through dividends and/or from capital growth if the share price rises.</p>

UNDERSTANDING INVESTMENT RISK

THE RISKS OF INVESTING

All investments carry risk. The value of your investment may fall for a number of reasons, which means that you may receive back less than your original investment when you withdraw or you may not receive income over a given timeframe. Before making an investment decision, it's important to understand the risks that can affect the value of your investment. While it's not possible to identify every risk relevant to investing in the Funds, we have detailed in the following table significant risks that may affect your investment.

Different strategies may carry different levels of risk, depending on the assets that make up the strategy, and assets with the highest long-term returns may also carry the highest level of short-term risk due to their generally larger fluctuations in returns.

Your financial adviser can assist you in determining which Funds are suited to your financial needs.

SIGNIFICANT RISKS

TYPE OF RISK	DESCRIPTION OF RISK
Market and economic risk	Certain events may have a negative effect on the price of all types of investments within a particular market. These events may include changes in economic, social, technological or political conditions, as well as market sentiment.
Asset risk	A particular asset that a fund invests in may fall in value, which can result in a reduction in the value of your investment.
Currency risk	For investments in international assets, which have currency exposure, there is potential for adverse movements in exchange rates to reduce their Australian dollar value. For example, if the Australian dollar rises, the value of international investments expressed in Australian dollars can fall.
Interest rate risk	Changes in interest rates may have a negative impact, either directly or indirectly, on investment returns.
Credit risk	The issuer or party to a transaction may not repay the principal, make interest payments or fulfil other financial obligations in full and/or on time. The market value of an investment can also fall significantly when the perceived risk of a note or bond increases or its credit rating declines.
Liquidity risk	The absence of an established market or shortage of buyers for an investment can result in a loss if the holder of the investment needs to sell it within a particular timeframe. A shortage of liquidity can also result in delays in the payment of withdrawals from a fund – see 'Withdrawals' on page 37 and 'Suspension of applications, switches and withdrawals' on page 46 for further information.
Derivatives risk	Derivative values can fluctuate significantly and in certain circumstances a derivative can be more volatile than the underlying asset or index. The value of a derivative contract may fall as a result of an adverse movement in the underlying asset or index. Losses can be magnified where a greater exposure is created through the derivative position than is backed by the assets of a fund. Derivatives may also be subject to liquidity risk and/or counterparty risk. Depending on market conditions derivative positions can be costly or difficult to reverse. A counterparty may also be required to take collateral from a Fund's assets to support a derivatives contract. Therefore, there is a risk that if the counterparty becomes insolvent, the Fund's assets may not be returned in full. See 'Use of derivatives' on page 22 for further information about how derivatives may be used in the management of the Funds.
Counterparty risk	A loss may occur if the other party to a contract, including derivatives contracts, lending arrangements (cash or stocks) or currency hedging agreement, defaults on their obligations under the contract.
Legal and regulatory risk	Changes in legislation and differences between rules (including interpretation of the law) in domestic and foreign markets, including those dealing with taxation, accounting and investments, may adversely impact your investment.
Investment strategy risks	A fund's investment strategy may involve specific risks. These include gearing risk, short-position risk, prime broker risk, portfolio concentration risk, industry sector risk and smaller company risk – see 'Investment strategy risks' on page 5 for details.
Other risks	The investment professionals employed to manage the Funds may change, which may affect the future performance of a Fund. Investing in a Fund may have a different tax outcome than investing directly because of the application of tax laws to the Fund and the impact of investments and withdrawals by other investors. One result is that you may receive back some of your capital as income. Transactions may be suspended, which may result in delays in paying withdrawal requests – see 'Suspension of applications, switches and withdrawals' on page 46 for further information. A Fund may be terminated.

INVESTMENT STRATEGY RISKS

GEARING RISK

With gearing, the investment manager borrows money from a lender to increase the amount the fund can invest. While this can result in larger investment gains in a rising market, it is also likely to magnify losses in a falling market.

Gearing increases the volatility of a fund's investment returns. Consequently, a geared fund is considered to have a higher investment risk than a comparable fund that is ungeared.

The returns of a geared fund depend on the types of investments in it as well as the level of gearing and the costs of borrowing, including interest rates.

The greater the level of gearing, the greater the potential for loss of capital. As the following example shows, a 10% fall in the market value of assets in an ungeared fund could translate into a 20% fall in the value of the same portfolio in a geared fund with a gearing level of 50% (excluding fees and borrowing costs).

EXAMPLE

YOUR INVESTMENT AMOUNT	\$1,000	\$1,000
Fund gearing level	nil	50%
Amount borrowed by fund	n/a	\$1,000
Amount invested in the market	\$1,000	\$2,000
IF THE VALUE OF THE FUND'S ASSETS FALLS BY 10%:		
Fall in value of fund's assets	\$100	\$200
Value of fund's assets after fall	\$900	\$1,800
Outstanding loan	n/a	\$1,000
Value of your investment	\$900	\$800
Loss of investment capital	\$100	\$200
Effective rate of loss	10%	20%

Consequently, the greater the level of gearing, the less the fall in asset value needs to be for a greater loss of your investment capital.

The gearing level may change regularly due to factors such as market movements, applications, withdrawals or changes to the amount borrowed. In certain circumstances, it may be necessary to suspend withdrawals to manage the fund's gearing position within its approved limits and protect the interests of all investors in the fund.

The lender may have the right to reduce the gearing level set for the geared fund or terminate the lending facility. This means that a geared fund may need to promptly reduce the gearing level by selling assets, which may force the sale of assets at unfavourable prices. To control this risk, the investment manager may establish alternate sources of funding to limit the exposure to any one lender.

SHORT-POSITION RISK

For Perpetual Wholesale SHARE-PLUS Long-Short Fund, a short position can be created when the Fund sells a borrowed security before buying it back from the open market to return to the securities lender. As the following example shows, if the market price of the security:

- falls in value, the Fund makes a profit because it buys it back for less than it was sold
- rises in value, the Fund will incur a loss when buying it back for more than it was sold.

EXAMPLE

NUMBER OF SECURITIES BORROWED	1,000	1,000
Market price when borrowed securities are sold	\$10	\$10
Proceeds from sale of borrowed securities	\$10,000	\$10,000
Market price when securities are repurchased to return to lender	\$8	\$12
Cost to repurchase securities	\$8,000	\$12,000
Profit/(loss) from short position (before any borrowing costs)	\$2,000	(\$2,000)

Establishing a short position in a security involves a higher level of risk than investing in a security. This is because when you invest in a security, the maximum loss is generally limited to the amount invested. With short positions there is no limit on the maximum loss because there is no upper limit on the security's price. In other words, the loss will continue to increase as the security's price rises.

A further risk is that the securities lender may recall a borrowed security, so the Fund will have to find another securities lender willing to lend the security, or may have to buy the security quickly at an unfavourable price.

PRIME BROKER RISK

Perpetual engages a prime broker to provide financing for gearing and stock for the borrowing and lending of securities in Perpetual Wholesale Geared Australian Share Fund and Perpetual Wholesale SHARE-PLUS Long-Short Fund, as well as settlement services for these Funds and any other services agreed between the parties.

When one of these Funds borrows securities or cash, the prime broker is entitled to take collateral from the assets of the particular Fund. Any assets taken by the prime broker may be used by the prime broker for its own purposes (including lending those assets to third parties) for the period that the Fund retains the relevant liability. Therefore, there is a risk that if the prime broker becomes insolvent whilst the Fund remains indebted to the prime broker, the assets of the Fund may not be returned in full.

PORTFOLIO CONCENTRATION RISK

Investing in a Fund with a smaller number of investments may lead to more volatile returns than investing in a Fund with a more diversified portfolio.

INDUSTRY SECTOR RISK

Investing in a Fund primarily with exposure to a single industry sector (eg technology) exposes investors to additional risk since the price of many stocks within an industry sector may fall at the same time due to economic or other factors affecting that particular industry.

SMALLER COMPANY RISK

When investing in a company generally considered small by market capitalisation, an investor is exposed to many risks to which the company is exposed and this may impact the value of the security. The company may also be a new participant with limited public information or involve new concepts which may be speculative.

In addition, the market price of a smaller company's securities may fluctuate in an unrelated or disproportionate way to the operating performance of the company.

Shares in smaller and microcap companies may trade less frequently and in smaller volumes and therefore may be affected by liquidity risk to a greater degree than shares in larger companies.

HOW WE MANAGE THESE RISKS

We can't eliminate investment risks, however we aim to manage the impact of these risks by setting consistent and carefully considered investment guidelines.

APIR CODE

This is a unique industry identifier for each Fund.

COMMENCEMENT DATE

This is the month and year that the Fund received its first investment.

RISK LEVEL

The risk level represents the Standard Risk Measure (SRM), which is based on industry guidance to allow investors to compare funds that are expected to deliver a similar number of negative annual returns over any 20-year period, as follows.

RISK BAND	RISK LABEL	ESTIMATED NUMBER OF NEGATIVE ANNUAL RETURNS OVER ANY 20 YEAR PERIOD
1	Very low	Less than 0.5
2	Low	0.5 to less than 1
3	Low to medium	1 to less than 2
4	Medium	2 to less than 3
5	Medium to high	3 to less than 4
6	High	4 to less than 6
7	Very high	6 or greater

The SRM is not a complete assessment of all forms of investment risk, for instance it does not detail what the size of the negative return could be or the potential for a positive return to be less than an investor may require to meet their objectives. Further, it does not take into account the impact of administration fees on the likelihood of a negative return.

You should still ensure you are comfortable with the risks and potential losses associated with your chosen Fund(s).

The SRMs for the Funds may change over time for various reasons, including as a result of reviews of the underlying capital market assumptions that are used in their calculation and future changes to asset allocations by the investment manager. Any changes to SRMs at any time will be available at our website.

SUGGESTED LENGTH OF INVESTMENT

This is a guide only and not a recommendation. You should discuss your investment in the Fund(s) with your financial adviser to ensure that it meets your needs.

FOOTNOTES TO FUND PROFILES

- 1 The constitution for Perpetual Active Fixed Interest Fund allows for multiple unit classes. This PDS offers investment in the Fund's 'Class A' units. Any reference to this Fund in this PDS is a reference to Class A units in that Fund. A separate class of units is currently offered to wholesale clients (as defined in the Corporations Act 2001) via Information Memorandum.
- 2 Perpetual Active Fixed Interest Fund commenced as a registered managed investment scheme in April 2005.
- 3 Investment grade is a term given to securities that have a high probability of payment of interest and repayment of principal and are generally considered to be investments with a rating of BBB- or above.
- 4 Sub-investment grade is a term given to securities where there is a higher risk that the issuer may not be able to meet interest payments or the repayment of principal if difficult conditions arise and are generally considered to be investments with a rating below BBB-. The Fund typically invests in investment grade securities, but we may increase our sub-investment grade exposure under favourable economic conditions. Sub-investment grade securities may include, but are not limited to, non-rated securities, hybrids, mortgages, mezzanine mortgages and private debt.
- 5 The constitution for Perpetual Diversified Income Fund allows for multiple unit classes. This PDS offers investment in the Fund's 'wholesale' units. Any reference to this Fund in this PDS is a reference to wholesale units in that Fund.
- 6 Interest rate duration is a measure, expressed as a number of years, of the sensitivity of the principal value of a fixed income investment to a change in interest rates. Generally, the closer duration is to zero the less interest rate risk there is in the Fund.
- 7 The constitution for Perpetual High Grade Treasury Fund allows for multiple unit classes. This PDS offers investment in the Fund's 'Class R' units. Any reference to this Fund in this PDS is a reference to Class R units in that Fund. A separate 'wholesale' class of units is currently offered to wholesale clients (as defined in the Corporations Act 2001) via Information Memorandum.
- 8 This is the commencement date for Class R units. Perpetual High Grade Treasury Fund commenced as a registered managed investment scheme in October 2001.
- 9 The Fund invests predominantly in Australian shares listed on or proposed to be listed on any recognised Australian exchange but may have up to 20% exposure to international shares listed on or proposed to be listed on any recognised global exchange. Currency hedges may be used from time to time.
- 10 The gearing level is the Fund's borrowings divided by the total gross value of assets. It will depend on the present levels and future expectation of the Fund's net income (income after fees and expenses and excluding franking credits) and the cost of borrowings. If the Fund's gearing level exceeds 60% (due to withdrawals or negative market movements), Perpetual will reduce the gearing level to 60% (or lower) within a reasonable period of time by repaying part of the borrowings through inflows or selling some of the Fund's assets.
- 11 The Fund invests predominantly in Australian shares listed on or proposed to be listed on any recognised Australian exchange but may have up to 10% exposure to international shares listed on or proposed to be listed on any recognised global exchange. Currency hedges may be used from time to time.
- 12 The net market exposure is the value of the Fund's long positions minus the value of the Fund's short positions. The Fund predominantly holds short positions in Australian shares but may have up to 10% exposure to short positions in international shares.
- 13 The Fund may invest in shares listed on or proposed to be listed on any recognised Australian exchange.
- 14 The constitution for Perpetual Global Share Fund allows for multiple unit classes. This PDS offers investment in the Fund's 'Class A' units. Any reference to this Fund in this PDS is a reference to Class A units in that Fund.
- 15 The Fund commenced in November 2009 as an unregistered fund, with Perpetual Group as its sole investor. The first public offer to invest in the Fund following the Fund's registration with ASIC as a managed investment scheme occurred in August 2014.
- 16 Cash may be held in Australian dollars (AUD) or foreign currencies.
- 17 The constitution for Perpetual Global Share Fund Hedged allows for multiple unit classes. This PDS offers investment in the Fund's 'Class A' units. Any reference to this Fund in this PDS is a reference to Class A units in that Fund.
- 18 Currency hedging may need to be suspended temporarily if it becomes impractical or unlawful to apply at any time or if our agreement with the currency overlay manager is terminated by either party for any reason. This means that the Fund may be unhedged, or may not have a minimum of 75% hedged, until such time as currency hedging recommences and/or we were able to appoint a new alternative currency overlay manager (on commercially acceptable terms).
- 19 Irrespective of the Fund name, Perpetual Wholesale Conservative Growth Fund has a Standard Risk Measure risk band rating of 5. It has been estimated that this Fund may have 3 to less than 4 negative annual returns over any 20-year period.
- 20 The Fund may gain its exposure to Australian shares by investing in one or more underlying Australian share funds. Where the Fund invests in Perpetual Australian Share Fund, that underlying fund invests predominantly in Australian shares listed on or proposed to be listed on any recognised Australian exchange but may have up to 20% exposure to international shares listed on or proposed to be listed on any recognised global exchange. The investment guidelines showing the Fund's maximum investment in international shares do not include this potential additional exposure. Underlying Australian share funds may use short positions as part of their investment strategy. Currency hedges may be used from time to time.
- 21 This Fund may invest in fixed income funds that allow gearing.
- 22 Perpetual may allocate up to 30% of the portfolio to other assets which may include, but is not limited to, infrastructure, mortgages (including mezzanine mortgages), private equity, opportunistic property, absolute return funds, commodities and real return strategies. Exposure to other assets aims to enhance the Fund's diversification and may help reduce volatility.
- 23 Inflation is defined as the quarterly All Groups Consumer Price Index (CPI), as measured and published by the Australian Bureau of Statistics. Whilst the median of the target inflation rate published by the Reserve Bank is used as a proxy for CPI for the purpose of determining performance fees payable on Class Z units in Perpetual Diversified Real Return Fund, this does not impact the target objective of the Fund.
- 24 International shares may include some exposure to Australian shares and vice versa. The combined exposure to Australian and international shares is subject to a maximum of 70%.
- 25 Other investments may include, but are not limited to, hedge fund replication strategies, insurance-linked strategies, specialist credit and structured products and private market investments.
- 26 Illiquid assets are defined as assets within the above allocations that have no readily available secondary market and are not marketable securities. Units in unlisted funds are considered illiquid where underlying assets meet that definition.

ADDITIONAL INVESTMENT INFORMATION

USE OF DERIVATIVES

A derivative is a financial instrument that usually derives its value from the price of a physical security or market index. Derivatives include, but are not limited to, futures, options, swaps and forward foreign exchange contracts.

Derivatives may be used in the management of the Funds for a range of investment activities including, but not limited to, the following purposes:

- managing investment risk and volatility of a stock, security or market
- managing actual and anticipated interest rate risk and credit exposure
- managing currency risk and adjusting currency exposure
- achieving asset exposures without buying or selling the underlying securities
- creating short exposure to a stock, security or market where permitted
- generating additional income
- adding to the gearing levels of relevant Funds' portfolios
- managing strategic and tactical asset allocation strategies
- taking advantage of price differences (known as arbitrage).

The use of derivatives is consistent with each Fund's investment guidelines and objectives.

Investing in derivatives can expose a Fund to additional risks. Please refer to 'Derivatives risk' within the 'Significant risks' table on page 4 for more information.

ENVIRONMENTAL, SOCIAL AND ETHICAL FACTORS AND LABOUR STANDARDS

Perpetual is a signatory to the United Nations-supported Principles for Responsible Investment (PRI). PRI signatories undertake to consider environmental, social and corporate governance (ESG) factors in their investment decision-making and ownership practices.

PERPETUAL ETHICAL SRI CREDIT FUND AND PERPETUAL WHOLESALE ETHICAL SRI FUND

Perpetual evaluates companies, issuers and derivative counterparties (as applicable) that meet the investment approach, set out in the 'Fund profiles' on pages 10 and 13, on a range of environmental, social, governance and ethical issues and labour standards to determine their suitability for inclusion/retention in, or divestment from, the portfolios of these Funds. We seek to invest in quality companies or issuers that have satisfied our range of ethical and socially responsible investment criteria.

There are two main steps to the process, namely ethical exclusions and socially responsible investments (SRI) screening, utilising research from external specialists.

ETHICAL EXCLUSIONS

We don't invest in companies or issuers that derive a material proportion of their revenue from:

- the manufacture or sale of alcohol or tobacco
- the operation of gambling facilities or the manufacture of gambling equipment
- fossil fuels (upstream)
- uranium and nuclear
- animal cruelty (cosmetic testing)
- genetic engineering
- pornography
- armaments (including weapons).

SRI SCREENING

Companies or issuers remaining after the ethical exclusions are then subject to an SRI screening to evaluate how their business practices impact society and the environment. The SRI screening involves three steps:

1. **Negative scoring:** Companies or issuers are scored on negative environmental, social and governance factors in relation to a number of criteria including the environment, labour standards, human rights, supply chain and corporate misconduct.
2. **Positive scoring:** Companies or issuers are scored on positive environmental, social and governance factors in relation to a number of criteria, including environmental improvement, labour standards, charity commitment and ethics.
3. **Universe inclusion:** Scores from all negative and positive screens are then combined. Companies or issuers with negative total scores are excluded while other companies become allowable investments.

The Funds' investments are regularly reviewed to determine whether they continue to pass the ethical SRI screening process when updated information is received. If we become aware that the Funds are invested in a company or issuer that no longer passes the ethical SRI screening process, the investment will be sold as soon as practical, in an orderly, price-sensitive manner.

Where a company or issuer is not covered by our research provider, we may invest in the asset (following preliminary internal analysis) until coverage is initiated. Should the stock or issuer fail the screening process when coverage commences, the asset will be sold as described above.

In rare circumstances where an issue that has caused an exclusion is deemed to be minor, we may override the exclusion for that issue, or for a period of time while the company or issuer rectifies the issue. These decisions are made independently of the Funds' portfolio managers to ensure conflicts of interest do not occur.

Emerging issues are monitored to ensure that the screening criteria remains relevant and in the spirit of the Funds. From time to time, and with the advice of our research provider, we may alter the screening criteria to take account of these emerging issues. We may engage with companies that are at risk from emerging issues to encourage them to consider the issue and improve their practices. We can modify the screening process for Perpetual Ethical SRI Credit Fund and Perpetual Wholesale Ethical SRI Fund at any time.

PERPETUAL ETHICAL SRI CREDIT FUND

Sovereign issuers (governments) will be analysed on ESG factors, based on a scoring system utilising research from external specialists. This may include, but is not limited to, considering any unethical practices such as corruption, rule of law and political instability of the sovereign.

OTHER FUNDS

Apart from Perpetual Ethical SRI Credit Fund and Perpetual Wholesale Ethical SRI Fund, our consideration of ESG factors and labour standards does not include making ethical or moral judgements on particular practices or issues. Instead, when deciding whether to buy, retain or sell an investment, our investment managers consider those ESG risks and labour standards only to the extent that they are relevant to the current or future value of the investment. For share investments, we may also actively engage with companies to encourage them to improve their ESG practices or labour standards where we believe it is in the interest of a Fund's investors.

FEES AND OTHER COSTS

DID YOU KNOW?

Small differences in both investment performance and fees and costs can have a substantial impact on your long-term returns.

For example, total annual fees and costs of 2% of your investment balance rather than 1% could reduce your final return by up to 20% over a 30-year period (for example, reduce it from \$100,000 to \$80,000).

You should consider whether features such as superior investment performance or the provision of better member services justify higher fees and costs.

You may be able to negotiate to pay lower contribution fees and management costs where applicable. Ask us or your financial adviser.

TO FIND OUT MORE

If you would like to find out more or see the impact of fees based on your own circumstances, the **Australian Securities and Investments Commission (ASIC)** website (www.moneysmart.gov.au) has a managed funds fee calculator to help you check out different fee options.

FEES AND OTHER COSTS

This document shows fees and other costs that you may be charged. These fees and other costs may be deducted from your money, from the returns on your investment or from the Fund's assets as a whole.

Tax information, including goods and services tax (GST), is set out on pages 41-42. Unless otherwise stated, all fees and other costs disclosed in this PDS are inclusive of the net effect of GST.

You should read all information about fees and costs because it's important to understand their impact on your investment.

- Past performance and these estimates are not indicative of future returns.** Performance fees payable in the future may vary depending on the Funds’ actual performance. See ‘Performance fees’ on page 30 for further information.
- Since we currently choose to pay normal operating expenses out of our management fee, these amounts represent any abnormal operating expenses recovered from the Funds for the financial year ended 30 June 2019, which may vary in future years.
- See ‘Other indirect costs’ on page 31 for further information.
- Totals may vary slightly to the sum of the various components due to roundings.

 - gross asset value (GAV), which includes borrowings at an assumed average gearing level of 50% of the Fund’s GAV
 - net asset value (NAV), which excludes borrowings.

If the average gearing level over the year is lower or higher than 50%, the management fee based on GAV will be respectively lower or higher than 2.34% of NAV.
- This percentage is based on the sum of the Fund’s long and short positions.
- This estimate is based on average annual performance fees charged in Perpetual Wholesale SHARE-PLUS Long-Short Fund for the previous five financial years ended 30 June 2019, where performance fees have ranged between 0.00% and 0.19% pa over that period. MANAGEMENT FEE

We receive management fees for managing your investments in the Funds, which includes providing administration and custodian services.

PERPETUAL WHOLESALE DIVERSIFIED INCOME FUND PERPETUAL WHOLESALE GEARED AUSTRALIAN SHARE FUND

Under these Funds' constitutions, we can choose to be issued with units for our management fee. We'll redeem these units as soon as practicable after we receive them.

DIFFERENTIAL FEES

We may negotiate a rebate of all or part of our management fee with wholesale clients (as defined by the Corporations Act) and employees of the Perpetual Group. The payment and terms of rebates are negotiated with wholesale clients but are ultimately at our discretion, subject to the Corporations Act and ASIC policy. Some Funds may also have a separate class of units with a nil management fee to facilitate the negotiation of the fee amount with, and means of payment by, relevant wholesale investors.

PERFORMANCE FEES

Performance fees may apply in:

- Perpetual Wholesale SHARE-PLUS Long-Short Fund
- Perpetual Global Innovation Share Fund
- Perpetual Wholesale Global Share Fund
- Perpetual Wholesale Global Share Fund Hedged
- Perpetual Diversified Real Return Fund – Class Z units.

A performance fee may be charged if a relevant Fund's investment performance (as a whole) exceeds its performance hurdle and other conditions, as outlined below, are met.

PERPETUAL WHOLESALE SHARE-PLUS LONG-SHORT FUND

The performance hurdle for Perpetual Wholesale SHARE-PLUS Long-Short Fund is the S&P/ASX 300 Accumulation Index plus 2% per annum.

The daily performance fee is equal to 13.98% of the difference between the Fund's daily return and its performance hurdle multiplied by the Fund's adjusted net asset value (that is, net asset value inclusive of management fee accruals but excluding accrued performance fees).

PERPETUAL GLOBAL INNOVATION SHARE FUND

The performance hurdle for Perpetual Global Innovation Share Fund is the MSCI All Countries World Net Total Return Index (AUD).

The daily performance fee is equal to 20.00% of the difference between the Fund's daily return and its performance hurdle multiplied by the Fund's adjusted net asset value (that is, net asset value inclusive of management fee accruals but excluding accrued performance fees).

PERPETUAL WHOLESALE GLOBAL SHARE FUND AND PERPETUAL WHOLESALE GLOBAL SHARE FUND HEDGED

The performance hurdle for:

- Perpetual Wholesale Global Share Fund is the MSCI World Net Total Return Index (AUD)
- Perpetual Wholesale Global Share Fund Hedged is the MSCI World Net Total Return Index fully hedged to the Australian dollar (AUD).

The daily performance fee is equal to 15.00% of the difference between each Fund's daily return and its performance hurdle multiplied by the Fund's adjusted net asset value (that is, net asset value inclusive of management fee accruals but excluding accrued performance fees).

PERPETUAL DIVERSIFIED REAL RETURN FUND – CLASS Z UNITS (PERFORMANCE FEE OPTION)

The performance hurdle for Perpetual Diversified Real Return Fund – Class Z units is the median of the target inflation rate published by the Reserve Bank¹ (currently 2.5% based on a target inflation rate of 2-3% per annum).

- 1 The target inflation rate is used as a proxy for the Consumer Price Index (CPI) since CPI is a lagged indicator.

The daily performance fee is equal to 10.00% of the difference between the Fund's daily return and its performance hurdle multiplied by the Fund's adjusted net asset value (that is, net asset value inclusive of management fee accruals but excluding accrued performance fees), subject to a maximum performance fee of 1.00%.

HOW THE PERFORMANCE FEES WORK

The performance fee period is:

- yearly (currently from 1 July to 30 June) for Perpetual Diversified Real Return Fund – Class Z units
- half-yearly (currently from 1 April to 30 September and 1 October to 31 March) for other relevant Funds.

The relevant Funds' constitutions allow Perpetual to change the performance fee period, with 30 days' written notice to investors under the law.

The performance fee is calculated each business day and is based on the performance of the Fund after management fees and expenses have been deducted.

Where the daily performance fee is positive:

- it is added to any currently accrued performance fee and reflected in the Fund's daily unit price² or
- where there is no currently accrued performance fee, it is applied to reduce any carried forward negative amount.

- 2 Only until the maximum performance fee of 1% is reached for Perpetual Diversified Real Return Fund – Class Z units.

If the daily performance fee is negative:

- it is applied to reduce any currently accrued performance fee³ and, if the resultant amount is still positive, reflected in the Fund's daily unit price or
- where there is no currently accrued performance fee, the negative amount is carried forward and will need to be offset by future positive performance fees before any performance fee can be accrued and reflected in the Fund's unit price.

³ For Perpetual Diversified Real Return Fund – Class Z units only – it is first applied to reduce any notional performance fee above the 1% maximum.

The performance fee paid to Perpetual is equal to the performance fee accrual since the performance fee was last paid. It's payable only if:

- the performance fee at the end of the period is a positive amount and
- the Fund's return over the performance fee period is positive.

If the performance fee at the end of a period is a negative amount, this amount carries over to the first day of the next period. This means that we must make up any under-performance from the previous period before we can start accruing a performance fee.

If the performance fee is a positive amount, but the Fund's return over the performance fee period is negative, this accrual amount carries over to the first day of the next period.

For Perpetual Diversified Real Return Fund – Class Z units only, any notional performance fee above the 1% maximum is reset to zero. The amount does not carry over to the first day of the next period.

INDIRECT COSTS

Indirect costs include both our expense recoveries deducted directly from the Funds and other costs incurred indirectly in underlying funds. Indirect costs may also be incurred if a Fund or underlying fund invests in derivatives.

EXPENSE RECOVERIES

We're entitled to charge to the Funds or be reimbursed from the Funds for any expenses incurred in the proper performance of our duties and obligations relating to the management and administration of the Funds.

There is no limit in the Funds' constitutions on the amount that can be recovered for expenses that are reasonably and properly incurred.

NORMAL OPERATING EXPENSES

Normal operating expenses are those incurred in the day-to-day operation of the Funds.

We currently choose to pay normal operating expenses out of our management fee.

ABNORMAL OPERATING EXPENSES

Abnormal operating expenses aren't generally incurred during the day-to-day operation of a Fund and aren't necessarily incurred in any given year. They're due to abnormal events like the cost of running an investor meeting, or legal costs incurred by changes in a Fund's constitution.

OTHER INDIRECT COSTS

Any relevant other indirect costs for the financial year ended 30 June 2019, which may vary in future years, are included within 'Estimated other indirect costs' in the 'Estimated management costs' table on pages 28-29.

The following applies where a Fund invests into an underlying fund (including exchange traded funds).

MANAGEMENT FEES IN UNDERLYING FUNDS

Managers of underlying funds will generally charge a management fee for their services. These fees will be deducted from the underlying funds and reflected in their unit price. With the exception of exchange traded funds and some unlisted securities, Perpetual will otherwise compensate the Fund for these amounts so they are not an indirect cost to you.

PERFORMANCE-RELATED FEES IN UNDERLYING FUNDS

Managers of underlying funds may also charge fees based on investment performance. These fees will be deducted from the underlying funds and reflected in their unit price. If charged, these amounts will be an indirect cost to you.

OTHER UNDERLYING MANAGEMENT EXPENSES

Managers of underlying funds may also charge expense recoveries to their underlying funds, which will usually be deducted from the assets of the underlying funds and reflected in their unit price, and/or the underlying funds themselves may incur indirect costs. If charged, these amounts will usually be an indirect cost to you.

TRANSACTIONAL AND OPERATIONAL COSTS

The following transactional and operational cost information for each Fund based on the most recently completed financial year, which forms part of the PDS, is publicly available at our website (see 'Incorporation by reference' on page 46 for details) or can be obtained free of charge by contacting us:

- estimated total Fund transactional and operational costs
- estimated transaction costs offset by buy/sell spreads
- estimated net transactional and operational costs borne by all investors (the estimated percentage by which the Fund's investment return has been reduced by transactional and operational costs), which ranged between 0.01% and 1.17% for the financial year ended 30 June 2019 depending on the Fund.

TRANSACTION COSTS

In managing the investments of the Funds, transaction costs such as brokerage, settlement costs, clearing costs and government charges may be incurred by changes in a Fund's investment portfolio, or when a Fund experiences cash flows in or out of it. Transaction costs are an additional cost to you.

When a Fund incurs transaction costs from changing its investment portfolio, they are paid out of the Fund's assets and reflected in its unit price.

Transaction costs that are incurred because investors buy or sell units in a Fund are also paid from the Fund's assets, but they are offset by the transaction cost allowances that are included in the calculation of the Fund's entry and/or exit unit prices, where relevant, as described under 'Buy/sell spread' on this page.

BUY/SELL SPREAD

Estimated transaction costs are allocated when an investor buys or sells units in a Fund by incorporating a buy/sell spread between the Fund's entry and exit unit prices, where appropriate. This aims to ensure that other investors aren't impacted by the transaction costs associated with a particular investor buying or selling units in the Fund. We have discretion to waive the buy/sell spread on applications or withdrawals where no transaction costs are incurred.

A buy/sell spread is an additional cost to you. The spread, if applicable, is based on our estimates of the average transaction costs incurred by a Fund. However, it is not a fee paid to us and is retained in the Fund to cover the actual transaction costs as they are incurred.

The buy/sell spread will impact the return on your investment.

Estimated transaction costs, which are used to determine the buy/sell spreads, are reviewed regularly. Consequently, the buy/sell spreads current as at the issue date of this PDS may change (increase or decrease) during the life of this PDS. The buy/sell spread for each Fund, which forms part of the PDS, is publicly available at our website (see 'Incorporation by reference' on page 46 for details) or can be obtained free of charge by contacting us.

GST is not applicable to any buy/sell spread when you buy or sell units in the Funds.

OPERATIONAL COSTS

Whilst we currently choose to pay normal operating expenses out of our management fee, if a Fund incurs any incidental borrowing costs for short-term operational purposes, these costs may be paid out of the Fund's assets and reflected in its unit price.

BORROWING COSTS

Any costs associated with a Fund borrowing money or securities (such as interest, establishment fees, government charges and stock borrowing fees) as part of its investment strategy are deducted from the relevant Fund's assets and reflected in its unit price.

PERPETUAL WHOLESALE SHARE-PLUS LONG-SHORT FUND

Perpetual Wholesale SHARE-PLUS Long-Short Fund will pay the securities lender an ongoing fee on borrowed stocks. The ongoing fee varies on a stock by stock basis but is usually within the range of 0.50%-5.00% per annum of the market value of the stock.

Estimated strategic borrowing costs of 0.22% were incurred by the Fund to achieve its investment return for the financial year ended 30 June 2019. These costs are reflected in the Fund's investment return and were additional to its management costs and transaction costs for that year. The Fund's borrowing costs may vary in future years depending on specific stock borrowing transactions entered into by the Fund and prevailing stock borrowing fees.

PERPETUAL WHOLESALE GEARED AUSTRALIAN SHARE FUND

Estimated strategic borrowing costs of 2.85% were incurred by the Fund to achieve its investment return for the financial year ended 30 June 2019. These costs are reflected in the Fund's investment return and were additional to its management costs and transaction costs for that year. The Fund's borrowing costs may vary in future years depending on the Fund's gearing level from time to time and prevailing borrowing charges, including interest rates.

MISCELLANEOUS FEES

If we incur a fee because a cheque or direct debit for your investment in the Funds is dishonoured by your financial institution, the amount will be charged to your investment.

GOVERNMENT CHARGES

Government charges will be applied to your account as appropriate.

MAXIMUM FEES AND CHARGES

Each Fund's constitution allows us to charge maximum fees as outlined in the table below.

Expense recoveries are unlimited under the Funds' constitutions.

Amounts disclosed are inclusive of GST unless stated otherwise.

INCREASES OR ALTERATIONS TO OUR FEES

We may change our fees without your consent. However, we won't increase our fees, or introduce contribution or withdrawal fees, without giving you at least 30-days' written notice.

Tax information, including GST, is set out on pages 41-42.

ADVISER REMUNERATION

FINANCIAL ADVISER COMMISSIONS

No commissions are paid to your financial adviser.

MEMBER ADVICE FEE

The member advice fee is a fee for financial advice you may receive in relation to your investment.

You can authorise us to pay an ongoing member advice fee to your financial adviser on your behalf out of your investment. Any member advice fee you authorise us to pay is additional and separate to the fees we charge in respect of your investment in the Funds. The available options are shown in the 'Member advice fees' table below.

You can nominate the Fund from which the member advice fee is to be deducted. If you don't make a nomination or if the balance in your nominated Fund is reduced to zero, the member advice fee will be deducted proportionately from your investment in the various Funds held at the time of payment.

The deduction of units to pay a member advice fee will be treated as a disposal of units for tax purposes, which may have tax implications for you (see 'Tax' on page 41 for details).

We can refuse to deduct a member advice fee. You can also turn off the member advice fee at any time by instructing us in writing.

OTHER BENEFITS

As a result of your investment in the Funds your financial adviser may receive other non-monetary benefits (where allowed by law), which are not an additional cost to you.

PAYMENTS TO DEALER GROUPS

Where the payment and receipt of dealer payments is allowable under the law, certain dealer groups (of which your adviser may be a part) may also receive payments. If these payments are made, they are not paid by you or the Funds, rather they are paid by us. These amounts may be up to 1.0% per annum (including GST, if applicable) of the funds invested via the dealer group.

PRODUCT ACCESS PAYMENTS

We may make payments to platform providers for distributing our Funds on their investments menu (where allowed by law). These payments may help them recover their costs incurred in establishing our Funds on their menu and certain other marketing and distribution costs. These amounts may be up to 1.0% per annum (including GST, if applicable) of the funds invested with us. If these payments are made, they are not paid by you or the Funds, but rather they are paid by us.

BENEFITS RECEIVED

As a result of brokerage paid by the Funds, we may receive benefits such as investment research, which we may use for any investment purpose, including for the Funds.

SAVINGS PLAN

With a savings plan, you can make regular investments in the Funds automatically by direct debit from your nominated Australian bank, building society or credit union account.

The minimum savings plan investment is \$100 per Fund, which can be made as follows:

- fortnightly – on alternate Thursdays (as set by us)
- monthly (default frequency) – on the 20th of the month
- quarterly – on the 20th of January, April, July and October.

If any of these days aren't business days, the next business day will apply.

Please contact us if you wish to change the investment amount or frequency, or cancel your savings plan.

The following table shows the impact on your savings plan of any withdrawals or switches from the Funds unless you provide alternative instructions at the time of withdrawing or switching.

IMPACT OF WITHDRAWALS AND SWITCHES ON EXISTING SAVINGS PLANS

TYPE OF TRANSACTION	IMPACT ON FUTURE SAVINGS PLAN
Full withdrawal from all savings plan Fund(s)	We'll cancel your savings plan.
Full withdrawal from some savings plan Fund(s)	We'll continue your savings plan for the same dollar amount invested into the remaining Fund(s) in proportion to your previous savings plan allocations to the remaining Fund(s).
Full switch from all savings plan Fund(s)	We'll transfer your savings plan to the Fund(s) that you switched to in the same proportion as the switch.
Full switch from some savings plan Fund(s)	We'll continue your savings plan for the same dollar amount. The allocation of your savings plan that was previously invested into the Fund(s) that you have switched from will be invested into the existing and/or new Fund(s) that you switched to in the same proportion as the switch.
Partial withdrawal or switch from all or some savings plan Fund(s)	No change to your savings plan.

We can terminate, suspend or impose additional conditions on the operation of your savings plan at any time with notice to you.

SWITCHES

You can generally switch all or part of your investment in a Fund into another Fund(s) at any time as long as you meet the withdrawal and application criteria for the nominated Funds.

The PDS may be updated or replaced from time to time and you should read the current version before you switch. You can obtain a copy of the current PDS, free of charge, at our website or by contacting us.

Please include the following information in your switch request:

- your client number and account number
- the number of units or amount to be switched from/to each Fund.

All switches involve a withdrawal of money from one Fund at its exit price and an investment in another Fund at its entry price on the same effective date. Consequently, there may be a cost to investors due to the buy/sell spreads on unit prices (see 'Buy/sell spread' on page 32 for further information).

A switch out of a Fund will generally be a disposal of units for tax purposes, which may have tax implications for you (see 'Tax' on page 41 for details).

WITHDRAWALS

You can withdraw all or part of your investment in a Fund at any time as long as you maintain a minimum balance of \$25,000 after any partial withdrawal from the Fund, otherwise we may close your account and pay the balance of your investment to you.

Please include the following information in your withdrawal request and ensure that it is signed by the authorised signatory (see 'Authorised signatories' on page 49 for more details):

- your client number and account number
- the name of the Fund(s)
- the number of units or amount to be withdrawn
- your payment instructions.

Withdrawal requests can be cancelled at any time before we have accepted them by notifying us.

Generally your withdrawal proceeds can be:

- invested into your existing account in Perpetual Cash Management Fund (if applicable) or
- deposited into your nominated Australian bank, building society or credit union account.

Withdrawal proceeds that are paid directly into your nominated account are subject to clearance by your bank, building society or credit union from the date of deposit into your account.

We will confirm all withdrawals in writing. For your protection, withdrawals will not be paid in cash. Withdrawals of money invested by direct debit request, at our discretion, may be required to be paid back into the account from which it was debited.

The proceeds from your withdrawal will usually be available within 14 business days from when we have accepted the request, given normal operating conditions. The maximum periods allowed under the Funds' constitutions for payment of withdrawals, after we have accepted the request, are shown in the following table.

MAXIMUM PERIOD FOR PAYMENT OF WITHDRAWALS

MAXIMUM	FUNDS
150 days	Perpetual Diversified Real Return Fund
70 days	Perpetual Wholesale Active Fixed Interest Fund
	Perpetual Wholesale Diversified Income Fund
	Perpetual Wholesale Dynamic Fixed Income Fund
60 days	Perpetual Wholesale Geared Australian Share Fund
	Perpetual Wholesale SHARE-PLUS Long-Short Fund
21 days	Perpetual Ethical SRI Credit Fund
	Perpetual Global Innovation Share Fund
	Perpetual Wholesale Global Share Fund
30 days	All other Funds ¹

1 For Perpetual Wholesale Income Share Fund, the maximum 30 day period may be extended to up to 60 days or longer for large withdrawals (that is, if we estimate that the Fund must realise 10% of its assets to fund redemptions) or where we consider the delay is in investors' interests or the law requires or permits.

If you withdraw your units before the end of a distribution period, you won't receive a distribution for those units in that period. Your withdrawal amount will generally include your share of distributable income accrued in the Funds to the date of withdrawal as capital.

We may determine that part of your withdrawal amount represents a share of the distributable income including realised net capital gains for that distribution period. We will advise you if this happens.

PHONE WITHDRAWALS

Please complete section 5 of the application form if you wish to be provided with a Personal Identification Number (PIN) for making withdrawals of up to \$50,000 (or another amount that we may set and advise you) per day by phone. You should keep your PIN secure at all times and advise us immediately if you suspect it has been compromised.

For your protection, we won't accept phone withdrawal requests for deposits to accounts that have not been previously nominated by the investor by mail or email.

Conditions apply to the phone withdrawal facility (see 'Other conditions' on page 46 for details).

EMAIL INSTRUCTIONS

We currently accept various instructions, including withdrawal requests, by scanned attachment to email provided we have no reason to believe the request isn't genuine.

Conditions apply to email withdrawal requests (see 'Other conditions' on page 46 for details).

REGULAR WITHDRAWAL PLAN

The regular withdrawal plan provides a convenient way for you to receive automatic payments from your investment for pre-determined amounts at nominated intervals. For example, if you are relying on your investment to provide you with a regular income (other than distribution payments), this facility eliminates the need for you to lodge a separate withdrawal request each time.

The minimum withdrawal amount for the regular withdrawal plan is \$100 per Fund. To establish a regular withdrawal plan, you must also maintain a minimum balance of \$25,000 for each of your selected Funds.

You can choose regular withdrawals to be paid from your selected Funds:

- monthly – as at the 24th of each month
- quarterly – as at the 24th of January, April, July and October
- half-yearly – as at the 24th of January and July or
- yearly (default frequency) – as at the 24th of July.

If any of these days aren't business days, the next business day will apply.

The proceeds of your regular withdrawal plan withdrawals will:

- only be deposited into your nominated Australian bank, building society or credit union account
- usually be available in your nominated account within seven business days, given normal operating conditions.

Please contact us if you wish to change the frequency or amount, or cancel your regular withdrawal plan.

We will automatically cancel your regular withdrawal plan relating to a nominated Fund if you withdraw your total investment from that Fund. We may also cancel your regular withdrawal plan relating to a nominated Fund if a partial withdrawal (including regular withdrawal plan withdrawal) reduces your account balance in that Fund to less than \$25,000 (or another amount that we may set and advise you).

We can terminate, suspend or impose additional conditions on the operation of your regular withdrawal plan at any time with notice to you.

BUY BACK OPTION

We may also agree to buy back your units in the Funds. This option is mainly relevant to New Zealand investors.

The withdrawal value that you'll receive for units under the buy back method will be reduced by any applicable duties and other costs that arise using this method, so it's likely that you'll receive less for the withdrawal of your units than using the direct withdrawal method. You should seek financial and/or tax advice before requesting us to buy back your units. A buy back request form is available from us.

HOW UNITS ARE ISSUED OR WITHDRAWN

Generally, if our Sydney office receives and accepts an investment application (including investment amounts received by BPAY, where applicable), switch or withdrawal request by 3.00pm on any business day, it will be processed using that day's entry and/or exit price (as applicable). If received and accepted after 3.00pm, it will be processed using the next calculated entry and/or exit price. If it's a non-working day for Perpetual in Sydney, it will be processed using the next available entry and/or exit price.

The number of units issued to you for investment applications and switches into a Fund is determined by dividing the investment or switch amount by the applicable entry price. The number of units redeemed for withdrawals and switches from a Fund is determined by dividing the withdrawal or switch amount by the applicable exit price.

For current entry and exit prices, visit our website or contact us.

We have the discretion:

- not to accept applications and can delay processing them if we believe that's in the best interests of investors or if required by law (see 'Suspension of applications, switches and withdrawals' on page 46 for more information)
- to accept transactions in our Sydney office up to 5.00pm on 30 June only (or the preceding business day should 30 June fall on a weekend).

We can delay processing withdrawal requests (including switches from a Fund) or stagger the payment of large amounts from a Fund according to its constitution if we believe that's in the best interests of investors (see 'Suspensions of applications, switches and withdrawals' on page 46 for more information).

DISTRIBUTIONS

A distribution is the payment of a Fund's distributable income to investors at predetermined intervals. The distributable income may include interest, dividends, foreign income, realised net capital gains and other income (see 'Tax' on page 41 for further information). The components of a distribution will depend on the Fund you invest in and the nature of its underlying assets.

The distribution amount depends on the Fund's distributable income. The amount of your distribution will be proportionate to the number of units you hold relative to the number of units on issue at the end of the distribution period. The amount will vary and sometimes there might not be any distribution.

At the end of each distribution period, a Fund's unit price will typically fall as it is adjusted to reflect the amount of any distribution. As your distribution amount is based on the entire distribution period, the closer you invest before the end of a distribution period the greater the possibility is that you may receive back some of your capital as income in the distribution paid for that period.

Distribution frequencies and effective dates for distributions for each Fund are shown in the 'Fund profiles' on pages 9-20. Distributions not reinvested are generally paid within 21 days. However, the Funds' constitutions allow up to 90 days (depending on the Fund) after the end of the distribution period.

Each Fund's constitution lets us make special distributions on an interim basis without prior notice to you.

Any realised net capital gains are generally included in the 30 June distribution.

You still have to pay tax on the distribution even if it is reinvested – see 'Distributions' under 'Tax' on page 41 for details.

DISTRIBUTION PAYMENT OPTIONS

You can choose to have your distributions for each Fund:

- reinvested in the same Fund
- invested in your existing account in Perpetual Cash Management Fund (if applicable) or
- deposited into your nominated Australian bank, building society or credit union account.

If you don't make a choice or if we're unable to credit your nominated account (if applicable), we'll reinvest your distribution.

We can also determine to reinvest part or all of your distribution in a Fund.

As the Funds have elected into the AMIT regime, there may be implications for distributions (see 'Tax' on page 41 for details).

Generally, for distribution reinvestments in the same Fund:

- amounts will be reinvested as at the first day following the end of the distribution period
- the reinvestment price will be based on the net asset value price (that is, excluding a buy spread) calculated on the last business day of the distribution period, adjusted for any distribution paid for that period.

If you are a New Zealand investor, please also refer to 'Distribution reinvestment plan' on page 47.

INSTRUCTIONS AND CHANGES

INTEREST EARNED ON APPLICATION, WITHDRAWAL AND DISTRIBUTION ACCOUNTS

Application money, proceeds of withdrawal requests and distribution amounts are held in trust accounts prior to being processed. A member of the Perpetual Group retains any interest earned on these accounts.

TAX

The tax consequences of investing in managed investment schemes are particular to your circumstances, so we recommend you see a tax adviser. This information is general only and shouldn't be relied on.

ATTRIBUTION MANAGED INVESTMENT TRUST (AMIT) REGIME

The Funds have elected into the AMIT regime.

TAX POSITION OF THE FUNDS

Generally, Australian income tax won't be payable by the Funds.

Under the AMIT regime, each year, we are required to break down the income of each Fund (net of fees and expenses) into trust components of assessable income, exempt income, non-assessable non-exempt income and tax offsets (eg franking credit offsets).

A Fund will not be subject to income tax provided that all of the determined trust components are attributed to investors on a fair and reasonable basis and in accordance with its constitution and any other constituent documents of the Fund (which includes this PDS).

Investors will be subject to tax on the income of the Funds that is attributed to them each year ending 30 June. If there is income of a Fund that is not attributed to an investor, the Fund will be subject to tax at the highest marginal tax rate (plus Medicare levy).

AUSTRALIAN RESIDENT INVESTORS

DISTRIBUTIONS

For information about the calculation of your distribution entitlement, see 'Distributions' on page 39.

The income of the Funds attributed to you must be included in your income tax return for the year of the entitlement even if the distribution is received or reinvested in the following year – see 'Annual tax statement' on this page.

Where a distribution made to you is less than¹, or more than, the trust components attributed to you, the cost base of your units will need to be increased or decreased, as appropriate. Details of the trust components attributed to you and any net cost base adjustment will be included on your annual tax statement.

Where a Fund's determined trust components for an income year are revised in a subsequent year (eg due to actual amounts differing to the estimates of income, gains/losses or expenses), then differences (referred to as 'unders and overs') will arise. Unders and overs will generally be taken into account in the year they are discovered.

- 1 If this were to occur, the Fund's unit price would only fall by the amount of the actual distribution and not by the additional amount attributed to investors. You would need to increase the cost base of your units for tax purposes by the amount that has been attributed but not paid as a distribution.

CAPITAL GAINS TAX

In addition to any realised net capital gains attributed to you, any withdrawal (including switching between Funds) or transfer of units in the Funds may create a taxable gain or loss, which will be treated as a capital gain or loss, or as ordinary income, depending on your circumstances.

ANNUAL TAX STATEMENT

We'll issue annual tax statements, referred to as an AMIT Member Annual Statement (AMMA), for the Funds at the end of August each year, or shortly after. It will show the taxable and non-taxable components of the income attributed to you (which includes any distributions received or reinvested) and any net cost base adjustment required to be made.

NON-RESIDENT INVESTORS

Australian tax will be deducted from certain Australian sourced income and capital gains distributed/attribution to non-resident investors. Non-resident investors may also be subject to tax in the country they reside in, but may be entitled to a credit for some or all of the tax deducted in Australia.

REPORTING

We are required to report to the ATO certain information relating to your investment in the Funds, including transactions and the income distributed/attribution to you.

TAX RESIDENTS OF OTHER COUNTRIES

We must obtain details about any other countries where you are a resident for tax purposes (including your taxpayer identification number) as the Funds may be required to report information about your investment (including investment balances and any payments made) to the ATO each year for provision to the relevant overseas tax authority under rules designed to combat tax evasion in that country. We will determine whether the Funds are required to report your details to the ATO for this purpose based on our assessment of the relevant information received.

TAX FILE NUMBER (TFN)/ AUSTRALIAN BUSINESS NUMBER (ABN)

Providing your TFN isn't compulsory but without it or the appropriate exemption information we have to withhold tax from the income distributed/attributed to you at the highest marginal tax rate (plus Medicare levy) until your TFN or exemption¹ is provided.

You may prefer to provide an ABN as an alternative to your TFN if your investment is made as part of an enterprise.

We are authorised under tax laws to collect TFNs and ABNs in connection with your investment in the Funds.

1 See page 48 for details of TFN exemption codes.

GOODS AND SERVICES TAX (GST)

GST generally applies to the fees, costs and expenses payable by the Funds, including management costs and other fees payable to us.

Generally, the Funds can't claim a credit for all of the GST paid but may be entitled to claim a reduced input tax credit (RITC), which represents a portion of the GST applicable to management costs and certain other expenses, as set out in the GST law.

The management costs and other fees specified in the table within 'Fees and other costs' on page 27 show the approximate net cost to the Funds of these amounts payable to us, on the basis that the Fund is entitled to claim RITCs for the GST on these amounts.

ADDITIONAL INFORMATION

YOUR COOLING-OFF RIGHTS

You have up to 14 days from the earlier of the time when you receive confirmation of issue of units in a Fund to you or the fifth business day after the units in a Fund are issued to you where you can have your investment repaid ('cooling-off period'). See 'How units are issued or withdrawn' on page 39 for details on when units in the Funds are issued.

The amount repaid will be adjusted for any transaction costs and any increase or decrease in the value of your investment. Any contribution fees paid will be refunded.

If you have authorised us to pay a member advice fee to your adviser on your behalf:

- we will reinstate the units previously deducted from your account and refund the amount to you only if we have not yet paid the fee to your adviser or
- you will be responsible for seeking a refund of any member advice fee from your adviser once it has been paid to your adviser.

Investments repaid may create a taxable gain or loss so we recommend that you see your tax adviser.

Your right to be repaid during the cooling-off period does not apply if:

- you are switching between Funds
- you exercise any of your rights as an investor in the relevant Fund
- you are a wholesale client (as that term is defined in the Corporations Act).

If you'd like to have your investment repaid, write to us stating that you want to be repaid during the cooling-off period (please include your account number). Your request must reach our Sydney office before the end of the cooling-off period.

When we receive your request, we will send you the details about your repayment.

HOW UNITS ARE PRICED AND INVESTMENTS ARE VALUED

Unit prices for each Fund are calculated by:

- establishing the net asset value of the Fund
- for entry unit prices – adding the applicable transaction costs (buy spread) to the net asset value and then dividing the adjusted net asset value by the number of units on issue to determine the entry unit price
- for exit unit prices – deducting the applicable transaction costs (sell spread) from the net asset value and then dividing the adjusted net asset value by the number of units on issue to determine the exit unit price.

We generally determine the net asset value of each Fund on each business day. The net asset value is calculated by deducting the value of a Fund's liabilities from the value of its gross assets.

The net asset value of investments in the Funds includes unrealised gains and losses and any income and realised gains accrued but not yet distributed. If unrealised gains are realised in the future, any assessable portion may be distributed to investors.

Investments are valued at their market value. In all cases, we determine the valuation method according to the relevant Fund's constitution. For those Funds investing in other managed funds, it will normally be based on the exit price of units in the underlying fund(s). We generally calculate and apply entry and exit unit prices each business day.

We can defer the calculation of unit prices where permitted by the relevant Fund's constitution and the law. For example, if significant delays occur where an underlying fund does not calculate or provide a price, unit prices may not be calculated nor applications, switches and withdrawals processed for that Fund until the underlying fund's unit price is determined.

A copy of our unit pricing policy, including details of any discretions that we may exercise in various circumstances, is available at our website or can be obtained free of charge by contacting us.

REPORTING

Investors in the Funds receive:

- an initial investment statement, generally within seven business days of your application being accepted and processed
- an additional investment statement, generally within seven business days of any additional investment being accepted and processed
- an investment restructure statement, generally within seven business days of any switch request being processed
- a withdrawal statement, generally within seven business days of any partial or full withdrawal request being processed
- a distribution statement following a distribution
- an annual statement providing details of your investment as at 30 June each year
- an annual report (including financial statements) for each financial year ending 30 June will be available at our website (copy by mail available on request)
- an annual tax statement for the financial year, generally sent by the end of August or shortly after, providing relevant details for your income tax return (available on request by non-resident investors)
- confirmation of any other transactions that we are required to report on.

Fund profiles (updated monthly) are also available at our website or can be obtained free of charge by contacting us.

CONTINUOUS DISCLOSURE DOCUMENTS

The Funds may be subject to certain regular reporting and disclosure obligations. Copies of documents lodged with ASIC in relation to the Funds may be obtained from, or inspected at, any ASIC office. You may obtain a copy of the following at our website or from us free of charge on request:

- a Fund's annual financial report most recently lodged with ASIC
- any half-yearly financial reports lodged with ASIC by a Fund after lodgement of that annual report
- any continuous disclosure notices given by a Fund after that date of lodgement of that annual report
- any other material updates.

YOUR PRIVACY

We collect personal information from you in the application and any other relevant forms to be able to process your application, administer your investment and comply with any relevant laws. If you do not provide us with your relevant personal information, we will not be able to do so. In some circumstances we may disclose your personal information to Perpetual's related entities or service providers that perform a range of services on our behalf and which may be located overseas.

Privacy laws apply to our handling of personal information and we will collect, use and disclose your personal information in accordance with our privacy policy, which includes details about the following matters:

- the kinds of personal information we collect and hold
- how we collect and hold personal information
- the purposes for which we collect, hold, use and disclose personal information
- the types of entities we usually disclose personal information to and the countries where they are likely to be located if it is practicable for us to specify those countries
- how you may access personal information that we hold about you and seek correction of such information (note that exceptions apply in some circumstances)
- how you may complain about a breach of the Australian Privacy Principles (APP), or a registered APP code (if any) that binds us, and how we will deal with such a complaint.

Our privacy policy is publicly available at our website (see 'Other documents' on page 46 for details) or you can obtain a copy free of charge by contacting us.

ANTI-MONEY LAUNDERING/ COUNTER-TERRORISM FINANCING LAWS

The Anti-Money Laundering and Counter-Terrorism Financing Act 2006 (AML Act) regulates financial services and transactions in a way that is designed to detect and prevent money laundering and terrorism financing.

Under the AML Act, we are required to:

- verify your identity before providing services to you
- collect information about your circumstances, including the source of funds being invested, your occupation (individual investors) and your beneficial owners (non-individual investors)
- where you supply documentation relating to your identity, keep a record of this documentation for seven years after the end of your relationship with Perpetual.

As a result:

- transactions may be delayed or refused where we require further information regarding your identity or we have reasonable grounds to believe that the transaction breaches the law or sanctions of Australia or any other country
- where transactions are delayed or refused, we are not liable for any loss you suffer (including consequential loss) as a result of our compliance with the AML Act.

Where required by law, we may disclose your information to regulatory or law enforcement agencies, including the Australian Transaction Reports and Analysis Centre (AUSTRAC), which is responsible for regulating the AML Act.

Customer identification requirements for individual investors are collected in the application form included with this PDS. All other prospective investors must complete the relevant 'Customer identification form', which is publicly available at our website or can be obtained free of charge on request.

We are not liable for any loss you may suffer as a result of our compliance with this legislation.

INVESTMENTS AND SOCIAL SECURITY

If you are a personal investor, your investment in the Funds may affect your social security or pension entitlements. The calculations are complex so we recommend that you seek advice from your financial or tax adviser, or use the Financial Information Service provided by the Department of Human Services.

MORTGAGE OF UNITS

We may, in our absolute discretion, note certain mortgagee interests over an investment (including any distribution reinvestment from that investment), and the following conditions will apply:

- you won't be able to transfer or withdraw your investment (including any distributions reinvested) without the mortgagee's consent
- amounts paid or assets transferred on withdrawal will be forwarded to the mortgagee or paid at the mortgagee's discretion
- the notice of mortgage can be removed only with the mortgagee's consent
- distributions that are not reinvested will be paid according to any instructions in the notice of mortgage, or otherwise according to the investor's instructions on the application form.

TRANSFER OF UNITS

With our consent, you may transfer units in a Fund to another person by providing us with a signed and completed standard transfer form and any other required documents.

A transfer of units will generally be a disposal of units for tax purposes, which may have tax implications (see 'Tax' on page 41 for more details).

OUR ROLE AS RESPONSIBLE ENTITY

As the responsible entity of the Funds, our main responsibilities are to manage a Fund according to its constitution and investment policy as well as properly administering it. We have established an investment review committee to set the investment objectives, investment guidelines and investment approach for the Funds. We may change a Fund's investment policy whenever we believe that's in the best interests of investors, without prior notice.

In carrying out our duties, we are subject to the Corporations Act and must:

- act honestly and in the best interests of investors
- exercise care and diligence.

CONSTITUTIONS

All registered managed investment schemes are governed by a constitution. A Fund's constitution (as amended) governs the Fund's operation and, together with this PDS, the Corporations Act and other laws, regulates the Fund and our legal relationship with investors. The Funds' constitutions have been lodged with ASIC.

We can amend the Funds' constitutions as permitted by the Corporations Act. You may inspect the Funds' constitutions at our offices on any business day free of charge or obtain a free copy by contacting us.

BORROWING POWERS

All of the Funds' constitutions allow the Funds to borrow (limits apply in some cases). Most of the Funds currently don't intend to borrow as part of their investment strategy (see the 'Fund profiles' on pages 9-20 for details of the investment strategy for each Fund). However, borrowing may occur in the management of the Funds. To the extent permitted, the Funds may borrow from a variety of sources, including companies associated with the Perpetual Group (in which case the terms are set on a commercial and arm's length basis).

OUR LIABILITY

Subject to the Corporations Act, we're not liable to investors for any losses in any way relating to the Funds, except to the extent to which the loss is caused by our fraud, negligence or breach of trust.

Our liability is, subject to the Corporations Act, limited to our ability to be indemnified out of the assets of the Funds.

RIGHTS OF INVESTORS

Each unit you hold in a Fund confers a proportional beneficial interest in the Fund. However, you're not entitled to any particular part of the Fund, its assets or its management or operation (other than through investor meetings).

Each Fund's constitution limits your liability to the value of your interest or units in a Fund. However, the courts are yet to conclusively determine the effectiveness of these provisions so no absolute assurance can be given that your liability is limited in every situation.

SUSPENSION OF APPLICATIONS, SWITCHES AND WITHDRAWALS

In certain emergency situations that impact the effective and efficient operation of a market for an asset in a Fund or in circumstances where we otherwise consider it to be in investors' interests, we may suspend processing all applications or withdrawals for that Fund in accordance with the Fund's constitution and switches between relevant Funds. This may include situations where:

- we cannot properly ascertain the value of an asset in the Fund
- an event occurs that results in us not being able to reasonably acquire or dispose of assets in the Fund
- an underlying fund suspends applications and withdrawals
- the law otherwise permits us to delay or restrict processing applications or withdrawals.

For Perpetual Wholesale Geared Australian Share Fund we may also suspend withdrawals if its gearing level exceeds 75%. If a suspension occurs, the gearing level will be reduced to 60% or lower within a reasonable period of time.

Applications, withdrawals or switch requests received during the suspension will be processed using the entry and/or exit price applicable when the suspension is lifted.

WITHDRAWAL OF LARGE INVESTMENTS

We can in certain circumstances delay or stagger the payment of large withdrawal requests. For example, if a withdrawal request represents more than 5% of the number of units on issue in a Fund, we have the right to stagger the withdrawal into five separate withdrawal requests over five successive business days.

NON-LIQUID FUNDS

If a Fund becomes non-liquid (as defined in the Corporations Act) withdrawals may only be made subject to an offer made according to the Corporations Act. In these circumstances, you will only be able to withdraw from a Fund if we make money available for withdrawals. The Corporations Act requires us to allocate this money on a pro rata basis among investors wanting to withdraw. We're under no obligation to offer you an opportunity to withdraw from a Fund while the Fund is non-liquid.

We will advise investors if a Fund becomes non-liquid and the terms of any withdrawal offer.

OTHER CONDITIONS

An investor that appoints an authorised representative or uses the phone or email facilities (as applicable) to provide instructions to us:

- acknowledges that they are bound by the acts of their authorised representative
- releases, discharges and agrees to indemnify us and each other member of the Perpetual Group from and against all losses, liabilities, actions, proceedings, accounts, claims and demands arising from instructions we receive under the facility and
- agrees that a payment or purported payment made according to the conditions of the facility shall be in complete satisfaction of our obligations or those of any other member of the Perpetual Group to the investor for a payment, even if it was requested, made or received without the knowledge or authority of the investor.

IMPORTANT ADDITIONAL INFORMATION FOR NEW ZEALAND INVESTORS

If you are a New Zealand investor, we are required to provide the following additional information to you under New Zealand law.

WARNING STATEMENT

1. This offer to New Zealand investors is a regulated offer made under Australian and New Zealand law. In Australia, this is Chapter 8 of the Corporations Act 2001 (Aust) and regulations made under that Act. In New Zealand, this is subpart 6 of Part 9 of the Financial Markets Conduct Act 2013 and Part 9 of the Financial Markets Conduct Regulations 2014.
2. This offer and the content of the offer document are principally governed by Australian rather than New Zealand law. In the main, the Corporations Act 2001 (Aust) and the regulations made under that Act set out how the offer must be made.
3. There are differences in how financial products are regulated under Australian law. For example, the disclosure of fees for managed investment schemes is different under the Australian regime.
4. The rights, remedies, and compensation arrangements available to New Zealand investors in Australian financial products may differ from the rights, remedies, and compensation arrangements for New Zealand financial products.
5. Both the Australian and New Zealand financial markets regulators have enforcement responsibilities in relation to this offer. If you need to make a complaint about this offer, please contact the Financial Markets Authority, New Zealand (<http://www.fma.govt.nz>). The Australian and New Zealand regulators will work together to settle your complaint.
6. The taxation treatment of Australian financial products is not the same as for New Zealand financial products.
7. If you are uncertain about whether this investment is appropriate for you, you should seek the advice of an appropriately qualified financial adviser.

ADDITIONAL WARNING STATEMENT: CURRENCY RISK

1. The offer may involve a currency exchange risk. The currency for the financial products is not New Zealand dollars. The value of the financial products will go up or down according to changes in the exchange rate between that currency and New Zealand dollars. These changes may be significant.
2. If you expect the financial products to pay any amounts in a currency that is not New Zealand dollars, you may incur significant fees in having the funds credited to a bank account in New Zealand in New Zealand dollars.

ADDITIONAL WARNING STATEMENT: DISPUTE RESOLUTION PROCESS

The dispute resolution process described in this offer document is available only in Australia and is not available in New Zealand.

DISTRIBUTION REINVESTMENT PLAN

Units allotted as a result of distribution reinvestment will be allotted in accordance with the PDS (see 'Distribution payment options' on page 39 for details) and the Funds' constitutions (as amended).

Where part or all of a distribution is reinvested, we will send you a statement showing the amount of the distribution and the number of reinvested units that have been allocated to your investment in the Fund within 30 days from when those units were allocated.

The following documents are available from us, free of charge on request:

- the most recent annual report of the Funds (if any)
- the most recent financial statements of the Funds (if any)
- the current PDS relating to units in the Funds
- the constitutions of the Funds and any amendments.
